SCATTER

GAS POWERED BIRD SCARER

BIRD MARK 3

**When mounted on legs
sound travels almost twice as far**

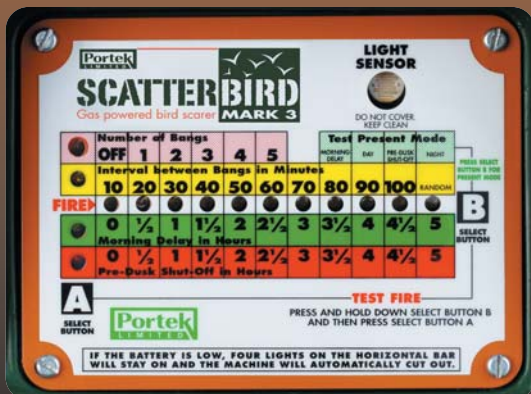

The Scatterbird Mark 3 is a sturdy, purpose built bird-scaring gas gun designed specifically to meet the needs of the farmer.

It sets the industry standards for durability & reliability and it incorporates many innovative features, including an impact resistant polypropylene casing.

- ✓ **Robust low maintenance design**
- ✓ **Weatherproof**
- ✓ **Automatic dawn start-up and dusk shut-off controls**
- ✓ **Reliable electronics**
- ✓ **Uniquely effective in high winds**
- ✓ **Simple to operate with adjustable firing times and interval control**

Optional rechargeable battery
2 months between charges*

Simple push button controls

Raising the Scatterbird Mark 3 off the ground on the optional adjustable legs enables the "bang" to be heard at twice the distance.

Use of the optional battery is recommended to keep the wiring off the ground and away from vermin damage.

The Scatterbird Mark 3 features a sophisticated, flexible, yet simple to operate control system allowing the operator to programme the frequency of the bangs and the interval between the bangs. The control panel can be set for an automatic start at dawn and an automatic shut-off at dusk. The number bangs can be preset at precise intervals or a random pattern can be easily selected.

*dependent on battery age.

HAWK EYES

B I R D S C A R E R

MOUNT A FOUR WAY ATTACK!

- 1. Reflected light**
- 2. Large predator eyes**
- 3. Nature's warning colours**
- 4. Movement**

How it works:

The Portek Hawk Eyes bird scarer features four well known visual bird scaring techniques. As the wind turns the globe, the combination of unsettling movement, bright warning colours, alarming predator eyes and flashing strobe light effects, panics, alarms and confuses the birds.

Ideal for agricultural crops, market gardens, allotments, vineyards, orchards, home gardens, airports, silage clamps, etc.

- Highly visible.
- Simple to assemble.
- No maintenance.
- Weather resistant.
- Wind driven.
- Silent - ideal for use in built-up areas.

Important:

For optimum crop protection, SEVERAL strategically placed Hawk Eyes are necessary using a mix of red & yellow globes.

AGRICULTURAL BIRD SCARING

Rope length:	40"

AGRICULTURAL BIRD SCARING

Rockets

Mount a surprise attack with Skybird rockets when bird infestation becomes an uncontrollable problem

Clears away birds with a very loud overhead bang. The unexpected loud mid-air explosion ensures no returning birds for many hours - especially if reinforced by a second rocket set off very soon after the first. Birds become accustomed to all conventional bird scaring equipment if regular changes are not made in location and timing. Skybird Rockets are best used, not as a substitute for other methods, but to enhance their effectiveness by introducing a new
